Rudy Giuliani's Common Sense, Christmas Is Not  
Canceled, It's Vital This Year | Rudy Giuliani |  
Ep. 96, Rumble (December 23, 2020)

Plaintiffs' Exhibit

**PTX-3**

C.A. No. 21-3354 (BAH)

1 RUDY GIULIANI: Welcome back to Rudy  
2 Giuliani's Common Sense, where at a very, very  
3 important time of the year for many reasons, the  
4 most ancient of which and the most important of  
5 which is we're approaching the birth of Jesus  
6 Christ, Christmas.

7 "Twas the night before Christmas when  
8 all through the house, not a creature was  
9 stirring, not even a mouse. The stockings were  
10 hung by the chimney with care in hopes that St.  
11 Nicholas would soon be there."

12 Well, I'd love to read the whole thing  
13 and maybe we'll do a separate one. I used to do  
14 it every year for the children of Mother Hale,  
15 and it was one of my favorite things to do as  
16 mayor.

17 But this is the night before Christmas  
18 and all through the house, things were stirring.  
19 They're not mice, they're rats. All kinds of  
20 rats were stirring here in Washington, which is  
21 where I am, and we know what's going on.

22 We've got a country that is deeply  
23 divided. It's been deeply divided for quite some  
24 time. And now that deep division has become a  
25 deep division over who won honestly the 2020

1 presidential election. Is it Biden, who claims  
2 to have the numbers, who has the media repeating  
3 it over and over again calling him as the winner  
4 prematurely, insisting that he's the winner and  
5 refusing to publish any information to the  
6 contrary?

7 Literally, engaging in a censorship,  
8 unheard of in American history, that actually  
9 began during the campaign with the censorship of  
10 the hard drive of Hunter Biden.

11 Now it's time to take a short break.

12 (COMMERCIAL)

13 Thank you for returning and let's take  
14 a look at how maybe we can look at this  
15 differently.

16 So we have the raw votes. We have the  
17 decisions of the states, the electors conveyed by  
18 their governors to Washington. On the other  
19 hand, we have massive, pervasive complaints of  
20 voter fraud. Now that second part isn't being  
21 covered honestly. That second part is being  
22 suppressed in an unamerican way more than I've  
23 ever seen anything else.

24 So many of you, the American people,  
25 don't know the full story and those of you who

1 do, know it with an anger that is driven by the  
2 suppression that's going on on the other side, so  
3 we're not capable, I guess, of having a rational  
4 debate because of the tremendous hatred and anger  
5 that has infused this process.

6 On the one side, as I said, the Biden  
7 people's insistence, this is the vote, this is  
8 it, it's over, it got certified, everything's  
9 fine. All these claims amount to nothing; after  
10 all, all the courts turned it down and it amounts  
11 to nothing.

12 On the Trump side, we have at least a  
13 thousand affidavits of witnesses ready to testify  
14 under oath that they saw substantial voter fraud  
15 in maybe a third of the cases. Alone, that voter  
16 fraud would have been enough to change the result  
17 in a state and turn it from Biden to Trump. You  
18 have a situation where at one point 142,000 votes  
19 were put in with nobody watching, nobody around.  
20 Turned out to be approximately 138,000 for Biden  
21 and 4,000 for Trump; that happened numerous  
22 times.

23 And there are easily 10 different  
24 witnesses in different states testifying to that.  
25 When you realize that those were states that were

1 won by 10,000 votes, 138- -- that would decide  
2 the whole election. These people are ready,  
3 willing, and able to testify under oath.

4 There's a video recording in Fulton  
5 County, Georgia of obviously, without any doubt,  
6 the theft of votes. You have to be a naïve child  
7 or a completely dishonest partisan not to realize  
8 that the observers are being thrown out of the  
9 room, a phone excuse of a water main break was  
10 used, they still were thrown out of the room --  
11 didn't want to leave.

12 Once they all left and a last check was  
13 done around the hall, the workers for Atlanta,  
14 for Fulton County, the five or six, one of whom  
15 has a history of voter fraud participation, Ruby  
16 Freeman, they scurry under these desks -- hardly  
17 where you would keep ballots, right? -- and they  
18 start taking ballots out and they put them on a  
19 wheelbarrow sort of thing and wheel them around.

20 And you can see the ballots don't look  
21 really like absentee ballots that are in  
22 envelopes; they more like pristine pieces of  
23 paper. And then they're given out and very  
24 quickly are being counted, counted, counted,  
25 counted. There are times in which it appears

1 that they were being counted more than one time -  
2 - three, four, five, six, seven times, eight  
3 times.

4 Any other situation where we didn't  
5 have this tremendous censorship and unfair  
6 treatment in the press and dishonesty in the  
7 press. It's quite clear who no matter who  
8 they're doing it for: they're cheating. It looks  
9 like a bank heist.

10 And then our experts can go back to  
11 that period of time and approximately figure out,  
12 well, how many votes got loaded in at that time;  
13 that's the one where they loaded in 138,000 to  
14 4,000: 138,000 votes for Biden, just the number  
15 to bring him kind of back from the deficit that  
16 he was in.

17 And at about the same time, the same  
18 thing was happening in Pennsylvania. In  
19 Pennsylvania, he was behind -- Biden was behind  
20 by 600,000 votes. They stopped the counting,  
21 like they did in Atlanta: stopped the counting,  
22 threw the people out. Next thing we know, we  
23 come in the next morning, the election is down to  
24 about 130,000 votes. They shaved most of the  
25 600,000 lead. That vote -- that vote was 500,000

1 and something for Biden and 3,000 for Trump.  
2 Trump got 0.02 percent of that vote. That alone  
3 would be enough to find them guilty of voter  
4 fraud. It's impossible that any sample of votes,  
5 Trump would get 0.02 percent of the vote. In his  
6 worst county in the entire country, he did 20  
7 times better than that.

8 I can't describe to you how obvious  
9 these things are. But the reason why some of you  
10 don't accept it is because of the propaganda  
11 machine that the Democrats have created. The  
12 stealing of this election is one of the most  
13 serious crimes against this country ever  
14 committed. The censorship imposed on this  
15 country may be even more serious.

16 So there's a long way to go before now  
17 and the selection of our president, and there's a  
18 lot of evidence that, in one way or another, the  
19 American people are going to learn and as they're  
20 learning it, the numbers and percentages about  
21 this election are changing. I mean, the  
22 overwhelming majority of Republicans are  
23 convinced the election was stolen. Pretty close,  
24 pretty close to a majority of Independents feel  
25 the same way. By the time they hear the rest of

1 the evidence, there'll be no doubt how they feel.  
2 And a small percentage of Democrats are beginning  
3 to change their mind.

4 Two recent polls, 10 percent of  
5 Democrats said, in this case, if they knew about  
6 the Biden hard drive, they wouldn't have voted  
7 for Joe Biden; of course, they wouldn't. The  
8 Biden hard drive shows that Biden's been a crook  
9 for 30 years. Who's going to vote for a crook  
10 for 30 years for president, unless it was  
11 suppressed by a media that aided and abetted that  
12 particular really crime.

13 So we're in this division now and we're  
14 going to go into a period -- go into a period  
15 right after Christmas in which the state  
16 legislators will be making and reviewing their  
17 decisions as to whether they made appropriate  
18 decisions. Several of them are questioning their  
19 decision based on newly discovered evidence. In  
20 particular, Arizona, a hearing there on  
21 decertification and recertification of Trump. In  
22 Georgia, a very serious hearing on  
23 decertification, as well as considering the  
24 proper certification, and there's consideration  
25 movement in that direction in both Michigan and

1 Pennsylvania.

2 And Wisconsin has an extremely discreet  
3 case in which the indefinitely confined list  
4 which allows you to vote as an absentee ballot  
5 voter was expanded from something like 20,000 to  
6 220,000. Wisconsin is very strict about this,  
7 and the law says if you're not truly confined,  
8 that vote has to be dismissed, thrown out. So we  
9 had 20,000 two years ago, 226,000 this year, and  
10 the question is among those 226,000, how many  
11 frauds are there. How many are, you know, going  
12 around on their motorcycle or taking a jog in the  
13 park and lifting weights and are listed as  
14 confined, unable to get out of the house, which  
15 is always a very small group in Wisconsin.

16 We're in the process of investigating  
17 that group, and I can report to you not the final  
18 result, but I can report to you that we're well  
19 beyond the point that would change the election.  
20 Remember, only 10,000 in Wisconsin.

21 So starting after Christmas, this is  
22 really going to blow up, because the evidence  
23 that all these crooked television networks,  
24 newspapers, big tech, and the leadership of the  
25 Democratic party have been giving you is false

1 and you're going to find it out all at once.

2 It's going to be very shocking to the country.

3 And that's why I pause for a moment,  
4 and we'll take a short break and we'll be right  
5 back with a slightly different take on it.

6 (COMMERCIAL)

7 Welcome back and let's begin this part  
8 with Merry Christmas, Happy Hanukkah, the best of  
9 the season to all of you. And let's pause in  
10 what we were talking about and just think for a  
11 moment about what this season means.

12 First, if you might indulge me in what  
13 it means theologically and then what it means  
14 broadly, and I say that because it is, in fact,  
15 one of the most important religious holidays in  
16 the Christian calendar, probably second only to  
17 the resurrection of Christ, and it's the holiday  
18 that probably is the most popular, largely  
19 because of all the traditions that have developed  
20 around it.

21 And it is the holiday really, I always  
22 wondered if Easter were more important than  
23 Christmas because without Christmas, there'd be  
24 no Easter. Without the birth of the Son of God,  
25 there would not have been the crucifixion and the

1 resurrection, so it's all part of one narrative  
2 that produced the largest religion in the history  
3 of the world.

4 In that religion, what is happening or  
5 what happened 2,000 years ago plus, is a little  
6 baby was born in Bethlehem, away from his home of  
7 Nazareth, in a stable because they were too poor  
8 to be able to get a room, a proper room, and the  
9 baby was the Son of God.

10 What that means to Catholics, to  
11 Christians, is that God became man. God became  
12 man to wipe away the sins committed by Adam and  
13 Eve, the original sin with which man inflicted  
14 himself, to give man a clean start; not to give  
15 man a clear, definite, predetermined road to  
16 eternity and heaven, but to give man a fair and  
17 honest shot at it by not being burdened with sin,  
18 but being given free will to make the decision  
19 between doing the right thing and the wrong thing  
20 and, therefore, earning his place in the larger,  
21 greater universe of things that we can only  
22 vaguely see.

23 And the birth of Jesus was not only to  
24 purify us but to encourage us, to encourage us  
25 that human life is important, that human life has

1 a Godlike qualify to it. It's the reason why you  
2 have such strong pro-life advocates within the  
3 Christian religion, various branches of the  
4 Christian religion because life is -- it's not  
5 even like animal life. God didn't become an  
6 animal. God became human, said something about  
7 the importance of you as a human being and the  
8 importance of your life and your importance to  
9 Him as your Creator.

10           Beyond the religious view, which we'll  
11 beyond the theology of it, it's a beautiful,  
12 beautiful indication of how important human  
13 beings are; that in one of the great religions of  
14 the world, human beings are considered so  
15 important that God would take on the aspects of a  
16 human being to demonstrate to human beings how  
17 important they are.

18           It drove civilization light years ahead  
19 of where it was. It elevated humanity. It  
20 created much of the art, the literature, the  
21 music, and the beauty of Western civilization, and  
22 it became ultimately the core of the documents  
23 that we rely on because the human being has the  
24 right to vote because the human being is  
25 important.

1           Every human being is important. The  
2 human being has the right to be treated fairly,  
3 has the right to free speech, has the right to  
4 privacy, has the right to be secure in his person  
5 and place, to be treated with dignity, because in  
6 the words of the old Catechism, he's made in the  
7 image and likeness of God and that becomes real  
8 on Christmas.

9           So that's what Christmas is for those  
10 who are believers and for those who are students  
11 of history and can see the goodness of this  
12 holiday, even if they don't accept the religious  
13 nature of it.

14           So let's take that and apply it to  
15 where we are. This is a very, very big dispute,  
16 one of the most jarring in the history of our  
17 country, could be one of the most important to  
18 determine the direction of our country. Are we  
19 going to honor the free speech, the freedom of  
20 religion, the free and fair elections that we've  
21 had in the past or are we going to distort them  
22 in a way that moves us toward socialism and  
23 Marxism because clearly that's the direction the  
24 Democrats are going in -- those are the models  
25 they've adopted -- or are we going to reaffirm

1 the essential humanistic nature of our democracy,  
2 which his based on the fact that the rights that  
3 we have come from God, not government or people.  
4 Our rights don't come from Joe Biden or Donald  
5 Trump or Democrats or Republicans; rights come  
6 from our Creator. They have no right to  
7 interfere with it because we're so important.

8 And even if you don't attribute that as  
9 a well-educated American, you probably agree that  
10 those rights at least come from nature. They are  
11 rights that human beings definitively should have  
12 in order to have a decent and a fair society;  
13 meaning, the right to free exercise of religion,  
14 the right of free speech, the right to select the  
15 people who govern you fairly and impartially.

16 This would be an excellent time to take  
17 a pause.

18 (COMMERCIAL)

19 Thank you for returning. Now let's go  
20 into the rest of it.

21 So either way, you get to the same  
22 result. These are quintessential eternal values  
23 that cannot be taken away, either because they're  
24 assured by God or they're assured by nature and  
25 they're assured by what is basically the common

1 sense of what makes a decent society, so that's  
2 at stake here, and we have to conduct this battle  
3 with that in mind. We have to try to conduct  
4 this battle as much as possible without vitriol,  
5 without personal anger, without hatred. A lot of  
6 where we are now is because of hatred.

7 I remember the inauguration of  
8 President Trump as if it were yesterday. I  
9 remember how cold it was. I remember sitting  
10 there, and then I remembered deciding I'd walk  
11 back and forth and watch the parade in different  
12 places even though I was invited to sit at the  
13 White House and I did.

14 I watched it at different places and  
15 saw all of the excitement, but I also saw the  
16 demonstrations and I saw all the hatred and I  
17 heard that very day the calls for his impeachment  
18 and the fact that he was illegitimately elected,  
19 and I said, my goodness, the hatred is building  
20 here, and that hatred became pathological, and it  
21 exists even to this day.

22 And then maybe those of us on the other  
23 side feel this tremendous anger at what was done  
24 to him: the unfair impeachments and the unfair  
25 charges and the false charges and a media that

1 seems to be so totally unfair, it's hard to  
2 believe they're honest people. I mean, we feel  
3 that; we feel that anger on our side.

4           There's got to be a chance we can rise  
5 above that and that over the next three to four  
6 weeks, without the anger and the vitriol, we can  
7 just look at the evidence. As his lawyer, that's  
8 what I would ask for. As his lawyer, that's what  
9 we have been asking for. When they say there are  
10 no cases that were decided in his favor, well,  
11 that's not true. There were a few that were, but  
12 the reality is most were not, but no cases were  
13 really decided.

14           The courts have heard not a single  
15 piece of evidence. Sixty cases, most of them not  
16 from us, maybe seven or eight from us; most of  
17 them from other citizens concerned about the  
18 election. They have heard not a single witness.  
19 No witnesses have been put on the witness stand  
20 and sworn in to be questioned the way I've  
21 questioned hundreds of witnesses, thousands of  
22 witnesses.

23           Were you there; did you see the vote?  
24 Yes. What did you see? Well, I saw a ballot  
25 called out for Biden and then I saw the ballot

1 entered five, six, seven times in the machine,  
2 which would have given Biden not one vote but  
3 seven. And then when I went and complained to my  
4 supervisor, I was told to shut my mouth.

5 That's testimony that you haven't  
6 heard. It's in an affidavit from a woman that  
7 would gladly testify before the House, the  
8 Senate, the courts, except the judge wouldn't let  
9 her testify. The judge wouldn't let us present  
10 so far the videotapes, so we've not had a  
11 hearing. Do you realize the bitterness that  
12 creates? You feel you've been wronged and  
13 whatever they want to say on the other side,  
14 whether we're right or wrong, we do feel we were  
15 wronged.

16 We legitimately -- listen to this now -  
17 - we, 60 million, 70 million, 80 million, 90  
18 million, 100 millions Americans believe the  
19 election was stolen, and we believe it based on  
20 evidence that we have seen that hasn't been  
21 rebutted.

22 I'll give you a very large, big picture  
23 reason why I can tell you the election was  
24 stolen. Since the election, we have asked to see  
25 the Dominion machines because we've been told

1 that they cheat, they changed the vote  
2 constantly. We did get a chance to examine 22 of  
3 them in Antrim County, Michigan, scientifically,  
4 and saw scientifically that they did change the  
5 vote. Three times they tried to balance the vote  
6 in those counties, and they couldn't; 84 percent  
7 of the votes cast were put into adjudication,  
8 which means the vote didn't go through for Biden  
9 or Trump. It got dropped into a separate place  
10 in the machine and then an administrator came and  
11 took them out and decided if the vote was for  
12 Biden or for Trump. You didn't decide. The  
13 administrator intervened between you and your  
14 sacred right to vote 84 percent of the times.  
15 That's not a fair election, I'm sorry.

16 And why was the machine made that way?  
17 Why was the machine made so that it is so  
18 difficult to identify a marking on a piece of  
19 paper? I will tell you it was made that way --  
20 and it goes back to Venezuela -- so you have more  
21 opportunities to cheat. Do you see what we're  
22 dealing with here?

23 Ladies and gentlemen, I'm not making  
24 these things up. I wish I was, but it makes me  
25 go to sleep at night wondering what's happening

1 to the rest of my country. And as I approach  
2 Christmas, I pray to Jesus that we can fix this;  
3 we can have some at which we're going to have an  
4 honest calm discussion of these facts in a  
5 courtroom where a judge will allow us to present  
6 this evidence and object to extraneous questions  
7 and do the things that I remember in the hundreds  
8 of hundreds of cases that I handled, some of them  
9 involving peoples' lives and deaths.

10 So I'm praying on this Christmas that  
11 somehow miraculously the spirit of Christmas  
12 infuses enough sense to listen to each other. We  
13 have wise things to say to each other. We have  
14 things which if they are not resolved now will  
15 fester. On the course that we're going, well,  
16 three legislators could change their minds and  
17 change the election; that's going to create  
18 tremendous turmoil in this country.

19 On the other hand, if it goes through  
20 the way it is, half of America, if not more,  
21 believes that the election has been stolen and  
22 they have evidence to prove it and the evidence  
23 will live long after the decision. The tape in  
24 Atlanta is to this crooked stolen election what  
25 the Zapruder Film was to the Kennedy

1     assassination, the film that was afterwards  
2     created tremendous doubt on the findings of the  
3     Warren Commission to such an extent that that  
4     doubt exists even today.

5             We don't want that. We don't want a  
6     cloud over an American presidential election if  
7     there is evidence that can be evaluated. The  
8     more they suppress this evidence, the more they  
9     keep saying that all these courts and all these  
10    places have found no evidence, the more those of  
11    us who know what happens realize what an  
12    injustice occurred because the courts have found  
13    nothing on the merits because they haven't viewed  
14    the evidence.

15            So we're working all through Christmas.  
16    We're working all through Christmas in Georgia,  
17    in Arizona, Wisconsin, we're working in  
18    Pennsylvania, we're working in Michigan, and  
19    we're working in order to bring forward the  
20    evidence -- not so much discovered. We've  
21    discovered most of it, although there's some  
22    very, very compelling additional evidence that  
23    we're on the verge of obtaining, which could  
24    break this wide open.

25            But we're asking for a hearing, and I'm

1 making one final pre-Christmas offer to shorten  
2 this. There are five states involved. The  
3 governors of those states have the power to  
4 release for forensic audit the Dominion machines.  
5 Why aren't you? If you're so sure that these  
6 claims that we're making are exaggerated, false,  
7 lying, all you have to do to prove that is to  
8 allow our forensic team two or three, four hours  
9 with the machine. You can watch, we're not going  
10 to change anything.

11 You can watch everything we're doing;  
12 there's no magic involved. And we can come away  
13 because our people have become really expert in  
14 this, we can come away and we can tell you how  
15 many votes they stole, how many votes they could  
16 have stolen, how many votes they actually did  
17 steal, how often they changed the vote around,  
18 what that algorithm was that they have in there,  
19 and what they were doing using half votes and  
20 quarter votes.

21 You see, you don't realize that this is  
22 not a voting machine. Voting machines count  
23 votes. They're like an adding machine except  
24 they record and record and record and then at the  
25 end of the day, you add up the votes for Biden,

1 Trump, whatever and you get it. So the only  
2 calculation to be done by a voting machine is to  
3 add; it should never subtract ever.

4 Well, these machines, these Dominion  
5 crooked machines are calculating machines,  
6 they're like computers: they can add votes, they  
7 can subtract votes, they can move votes around,  
8 they can re-weight votes; they can hide votes in  
9 certain areas of the machine and then put them in  
10 at different times; they can move votes to  
11 adjudication, in which case, the voter loses  
12 control of the vote, and an administrator decides  
13 how you voted.

14 It has numerous mechanisms for fraud.  
15 It also is as porous as Swiss cheese, which means  
16 your 12-year-old could hack it and certainly the  
17 35-year-old in China can, and not only hack it,  
18 but with relatively little skill move votes  
19 around in it and that has been done. And in the  
20 few machines that we've looked at, it has been  
21 done.

22 So I say to you if you have nothing to  
23 hide, release the machines. Prove it to us.  
24 Show us that we are what you say we are. I don't  
25 know what you say we are. You say we're insane,

1 we're crazy, we don't know what we're talking  
2 about. A great way to prove it: release the  
3 machines, then let us crazy people get a chance  
4 to examine the machines scientifically and put  
5 out a scientific report that can be examined by  
6 everyone, and let's see if we're right that the  
7 answering (sic) machine changed votes,  
8 recalculated votes, poured in votes at various  
9 times in order to determine the flow of the  
10 recount and, in fact, multiple times put in votes  
11 for Biden that, at one point, they put in 538,000  
12 votes for Biden and 3,000 votes for Trump where  
13 Trump got only 0.02 percent of the vote.

14 Let us look at how often that was done.  
15 My experts, who are all military people, tell me  
16 it could be done in working 24-hours a day in  
17 four or five days. We don't have to have you  
18 give us the machines. You let us come to where  
19 they are, and we'll conduct a survey right there  
20 and, as I said, you can watch.

21 Now let's cut the garbage here, huh.  
22 There's only one reason you won't let me do that.  
23 You won't let me do that because you know what  
24 I'm saying is true. There's no privacy interest  
25 in those machines. We're not going to find out

1 who somebody voted for. All we're going to find  
2 out is what you publicly report anyway: that  
3 Trump got 4,000 votes, Biden got 5,000 votes.  
4 Ah, but look, we can go into the memory of the  
5 machine, and we can show that Trump actually got  
6 6,000 votes and Biden actually got 3,000 votes,  
7 the way you cheated in Antrim County and got  
8 caught. You didn't just do it in Antrim County;  
9 you did it throughout America in order to change  
10 the results of this election.

11 I'm quite confident can prove that;  
12 that's why I'm quite confident to have this rest  
13 on the examination of the machines. Are you that  
14 confident? And if you're not, you better  
15 decertify your result because what it really  
16 means is you're lying.

17 If you will not produce those machines,  
18 you are actively covering up evidence of a major  
19 federal crime. And you're a governor, a  
20 secretary of state; what's wrong with you?  
21 Please think about this season, think about how  
22 we can come together. This is a way we can come  
23 together. Look at the machines. You're going to  
24 have a hard time fighting the results of the  
25 machines. And then we can come together because

1 if this election was stolen, I bet you come over  
2 on our side and if it's not, well, then we have  
3 to admit we're wrong.

4 Well, I'm willing to take that risk  
5 because I'm quite certain how it's going to come  
6 out and you're not willing to take that risk  
7 because you're quite certain how it's going to  
8 come out, so let's stop fooling people.

9 But maybe, just maybe a few of you have  
10 enough left in the area of integrity and caring  
11 about your country that you'll be willing to do  
12 it.

13 Thank you. I will be back in a few  
14 days.
